iKitbot ONE S55 Pro

All-in-One Precision Cleaning for Seamless Operations

From sweeping to scrubbing, mopping, and vacuuming — all cleaning tasks in one pass. Designed to reduce operational strain, lower maintenance costs, and deliver stable, long-term performance in professional environments.

All-in-One Cleaning

Sweeping, scrubbing, mopping, and vacuuming in one pass.

97% Water Recovery

Faster drying and higher hygiene with advanced chassis design.

Low Maintenance

Durable build and easy service reduce downtime and costs.

Smart Obstacle Detection

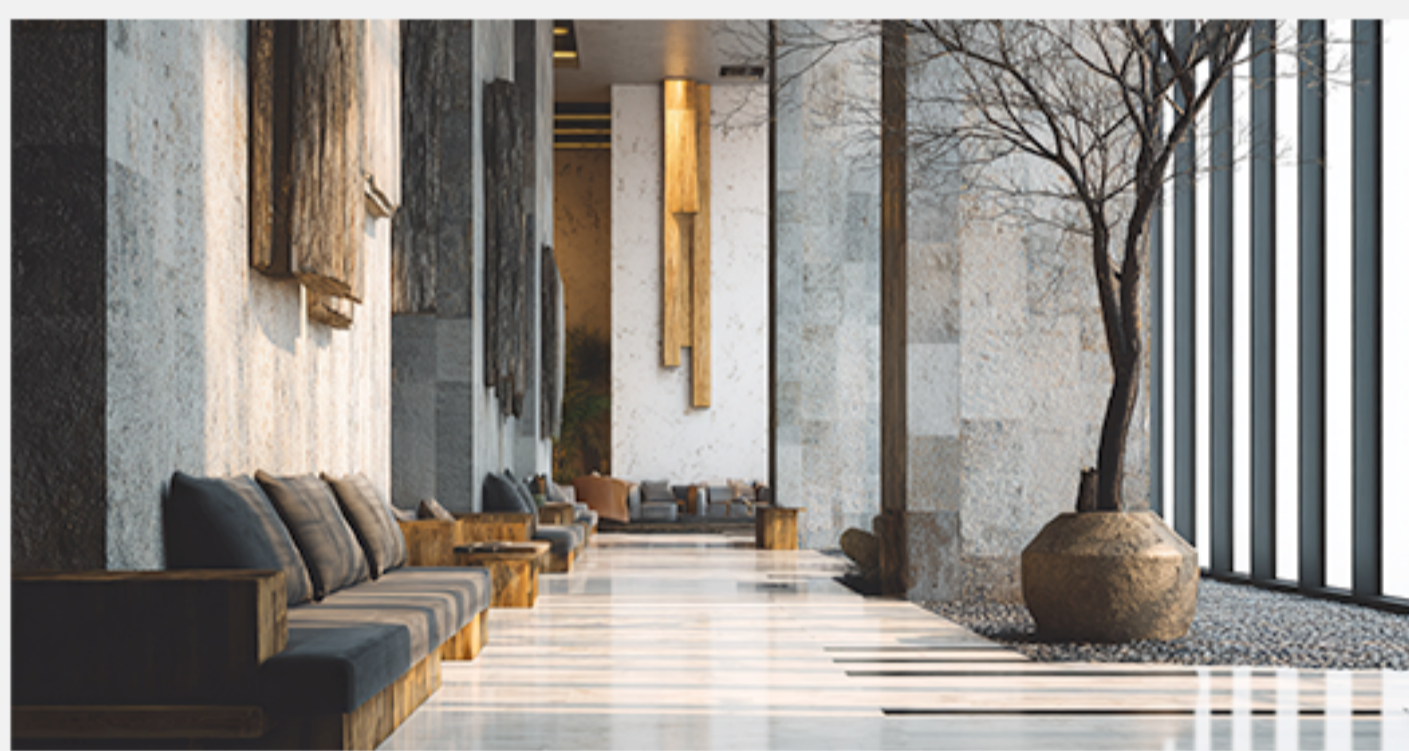

15-sensor fusion avoids glass, wires, and suspended objects.

Ultra-Quiet Operation

55 dB noise control for comfort in sensitive environments.

Adaptive Cleaning

Adjustable path and water output optimize results and save resources.

High-End Hotels

Quiet, all-in-one cleaning keeps lobbies and corridors spotless without disturbing guests — ensuring fast turnover and premium presentation.

Office Buildings

Adaptive cleaning across floors and surfaces delivers consistent cleanliness, enabling daytime operation without interrupting work.

iKitbot ONE S55 AD

iKitbot ONE S55 AD — Smart Cleaning Meets Dynamic Advertising

Dual-Mode Operation

Daytime: high-visibility advertising in high-footfall zones.
Night: fully autonomous floor cleaning, ensuring spotless floors by morning.

27-inch HD Mobile Display

Large, high-resolution moving screen for maximum ad impact. Flexible deployment reaches locations fixed bill boards can't.

Quick-Detach Screen Design

Modular, tool-free removal allows rapid maintenance and seamless ad content updates.

Integrated Shopping Basket (Retail Application)

Facilitates on-the-spot sampling, tastings, and product trials while ads are playing — converting attention into instant purchases.

Retail Automation Solution

Combines autonomous cleaning, dynamic ad display, in-store product sampling, and humanoid-assisted shelf restocking into one integrated system — driving sales, streamlining operations, and enhancing the shopper experience.
